## Quick start guide for **ADVANTOUCH**-Displays

### 1. Power On

Please turn on your laptop first. After your device has started up connect the USB-C cable to your laptop. The cable is located on the table near the whiteboard. Once you plug in the USB-C cable, the displays will turn on automatically.

Please wait about 30 seconds until the displays are ready for use.

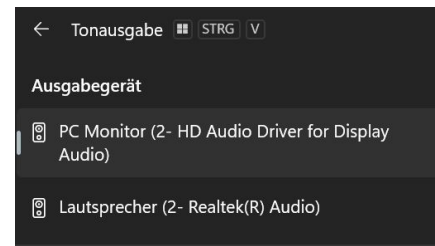

The cable transmits video and audio and provides up to 100 W of charging power.

### 2. Audio output and volume

To play audio, set the sound output on your device to “PC Monitor” if it is not selected automatically.

Please adjust the volume directly on your laptop

### 3. Power Off

Once you unplug the USB-C cable, the display will automatically turn off after a short time.

#### Note

- The displays behind the whiteboard are not height-adjustable and are not interactive (no touch function).
- To protect the equipment, the whiteboard may only be cleaned with a damp (not wet) cloth. Avoid splashing water.

### Support

- If you have any questions or issues, please contact the RRZ ServiceLine: [rrz-serviceline@uni-hamburg.de](mailto:rrz-serviceline@uni-hamburg.de)
